

# WIRELESS PALM UNITS

CSI is now offering a revolutionary software application that transforms the wireless Palm OS into a virtual terminal that will process credit card transactions everywhere wireless coverage is available.

Use your Palm Pilot to help manage your business affairs, keep track of the latest news, entertainment, sports and finances, **PLUS** process your credit cards!

*Featuring:*

**PORTABILITY**

Use as a virtual terminal anytime & anywhere! Enjoy worldwide access 24/7

**SECURED TRANSACTIONS**

CSI will protect you against fraud!

**SWIPE OR KEY YOUR TRANSACTIONS**

Enables you to receive the qualified discount rate, decrease fraudulent transactions and approve or decline transactions instantly.

**AGE VERIFICATION**

Perfect for bars, restaurants and clubs. Prevent fines by eliminating fake ID's and underage patrons.

**OFF-LINE TRANSACTION CAPABILITY**

If you are outside the wireless area, your transactions will be automatically stored until you can process the sales.

**ON-LINE SERVICES**

Batch control, process credit card transactions, download reports to Excel spreadsheets and more from any internet-capable computer.
